

Qualitative research in social sciences – dr Joanna Bielecka-Prus

Course duration: one semester

Number of ECTS credits: 4.0

Course description: This course will introduce participants to the methodological problems of gathering qualitative data in their research. Students will understand the available techniques for designing a qualitative research, theoretical traditions and conducting qualitative analysis. We will consider “classical” methods (interviews, observation, biographical methods) but also new approaches, action research, ethnodrama and autoethnography.
