Memory Benchmarks

Tracking the top memory modules...

----Select A Page ----

**How does your
Memory compare?**

Add your card to our benchmark charts with **PerformanceTest V9!**

Memory List

Below is an alphabetical list of all Memory types that appear in the charts. Clicking on a specific Memory model will take you to it's product page where it appears in various charts highlighted for you. Results for **DDR4**, **DDR3** and **DDR2** are listed in separate lists.

- **Latency Time** - In nanoseconds (ns), lower is better.
- **Read Uncached Transfer Rate** - In megabytes (MB) per second, higher is better.
- **Write Transfer Rate** - In megabytes (MB) per second, higher is better.

DDR 3
