

Plagiarism checker: The Unified Anti-Plagiarism System

The Unified Anti-Plagiarism System (UAS) is the program for automated digital detection of plagiarism in diploma theses. The Amendment to the Higher Education Act which came into force on 25 June 2016 has made using the Unified Anti-Plagiarism System for plagiarism checks of written diploma theses obligatory for Polish higher education institutions. The System is used by the Archive of Diploma Theses.

To obtain a UAS check report select the **My Thesis** tab (12).

Next, go to the **My Tasks** tab on the list located on the left at the **Shortcut** (13) or directly check the user's tasks at the **My Thesis** screen.

After selecting the task you will see your thesis site with all information relevant to the thesis. The system automatically transfers the user to the **Data acceptance** screen (3).

At the bottom of the screen and below **the Status** bar you will find your thesis file. Next, move to the **Examination management** tab (14).

Unified Anti-plagiarism System

After accepting the report your thesis is made available for the review.

Instructions on the UAS-based report analysis: <https://jsa.opi.org.pl/centrum-pomocy/baza-wiedzy-kategoria/raport/>

Data Acceptance

After completing the verification process of the uploaded thesis data and added files the supervisor can:

1. forward the thesis and attachments to be corrected by the author – click on the **Forward to Data Correction** button in red type,
2. accept the data and added files and forward the thesis to be reviewed - click on the **Writing reviews** button in green type. The system will send due e-mail notifications to the reviewer and the supervisor who will be asked to fill in the review (if the Faculty Board considers it necessary to add the review in the Archive of Diploma Theses).
