

## CAPITAL STRUCTURE AND DIVIDEND POLICY

Elżbieta Bukalska

Academic year 2020/2021

Spring semester

<b>Module name</b>	<b>Capital structure and dividend policy</b>
Erasmus code	<b>PL LUBLIN01</b>
ISCED code	04.3 (343, 344, 345)
Language of instruction	English
Website	
Prerequisites	Financial analysis, Financial management
ECTS points hour equivalents	<b>Contact hours (work with an academic teacher) 15</b>  <b>Total number of hours with an academic teacher 15</b>  <b>Number of ECTS points with an academic teacher 2</b>  <b>Non-contact hours (students' own work) 10</b>  <b>Total number of non-contact hours 10</b>  <b>Number of ECTS points for non-contact hours 1</b>  <b>Total number of ECTS points for the module 3</b>
Educational outcomes verification methods	Individual final project covering the assessment of the capital structure decisions in a company
Description	The module allows to develop the usage of financial tools to manage the financing of the company. It covers various approaches needed for raising capital. The students will learn to estimate costs and benefits of using debt and equity. This involves applying agency theory assumptions, asymmetric information hypotheses assumption, signaling hypotheses assumption, bankruptcy costs, business and financial risk, and behavioral attitude of managers. An important aspects of this course will be to bridge theory with practice in the contest of real world implications.
Reading list	<ol style="list-style-type: none"> <li>1. A. Damodaran, Corporate Finance, John Willey and Sons, New York, 2nd edition, 2005.</li> <li>2. R. A. Brealey, S. C.
