

1. A series of adaptive audiovisual materials for international students at UMCS

A small series of adaptive audiovisual materials for foreign students in UMCS in the form of several videos lasting several minutes, telling about the first steps of a student who moved from a foreign country (for example, from Ukraine or Belarus) to Lublin and his or her subsequent active student life in the form of a single story.

This project will allow newly arrived students from various countries of the world to quickly integrate into the student and urban environment of Lublin and will also encourage more active scientific and social activities of those students, as it will tell them in an interesting and easily digestible way for example how to move into an UMCS dormitory, how to resolve issues with the Dean's office, what and where is located on UMCS campus, how to join student organizations and etc.

2. BrainLab

The aim of project is: to get out of the confined room by solving deductive riddles (based on Polish history) and finding necessary items. We want to provide a space where international students are used in non-standard conditions, learning about unusual facts about Poland.

Forms of actions: communication, games.

3. Trip to Krakow and Auschwitz-Birkenau Museum

Aim of the project: To introduce foreign students to the city of Krakow and the ghastly stories of the Auschwitz-Birkenau Museum. And also visit several interesting places in Krakow.

Form of action: excursion.

4. Heritage

This project aims at integrating cultures present at UMCS from all over the world. The targeted involvement is both the students and UMCS staff, Polish and International. This project is to be carried out through two events, firstly through a 'Get To Know Heritage of Planet Earth' where we'll see participants educate the UMCS community about distinct parts of their cultures, focusing on each part of the world on monthly division, with little visits to Polish museums. The second event will then be an official dinner, where we'll have a conclusion of Earthly Heritage and its' nexus, by indication of speeches from invited guests, art (music, drawings, instruments, plays) and of course closed off with a complimentary dinner with a variety of cultural food from different parts of the world.

5. Phoenix City

This project is an initiative of a group of students - the winner of the UMCS talent competition. It involves organizing a one-day excursion to the capital of Poland.

It is a city of palaces and castles, squares and museums, the Polish capital Warsaw is a great place for walking, exploring the history and culture of Poland and having fun. The aim of our project is to familiarize foreign students with the history and culture of the Polish Republic. Sightseeing tour of the main sights of the capital.

6. **Point.UMCS 2**

Point 2 is a continuation of last year's project. We continue the mission of Point 1, maintaining its openness and internationality, but this time the emphasis will be shifted to gaining theoretical knowledge and practical skills in creating your own business in Poland. Entrepreneurs, masters and artists who have managed to realize their ambitions and turn their favorite business into something that brings not only pleasure, but also money will be invited to the event. At the event there will be a lecture area and a workshop area where everyone can try their hand at a new lesson. As last year, an important aspect of the event will be its openness and internationality. These aspects will allow us to fully realize the purpose of the event - to show the international advantages and prospects of studying at UMKS to the citizens of Lublin, to establish contacts between students from different cultures, to open a new positive vision of foreign students for Lublin citizens and to create a platform for better recruitment. result among entrants from other countries in the future.

7. **UMCS 5 ASIDE PREMIER LEAGUE**

This is a chance for the Polish students and the foreign students to have a chance to exercise and keep fit during these lockdown times. It also offers the the chance for the two communities to interact and communicate and share experiences through the unification factor of sport. My target group is every student at UMCS both Male and female, both polish and foreign and also employees of UMCS are welcome to make their own team. The duration of this league is 3 months and only 3 football fixtures will be played every weekend to avoid congestion during the Covid 19 times . The top 3 teams of the league will win prizes and there will also be prizes for the top scorer and the player with most assists. A WhatsApp group will be made that will tell have news concerning the league and the stats for the league's and its information will both be in polish and English to avoid any inconveniences . After the tournament the soccer ball and the bibs will be donated to UMCS . Concerning health regulations the sports facility we are using has a contacts of an ambulance incase of emergency and it has ensured it is prepared to host the league and the facility will he consistently disinfected once it opens on the 17th of January. I'm ae to do all this by myself and for the matches there will be a referee whilst I record the stats.

8. **UMCS SPORT-GLOBAL**

The main aim of the experiment is to create public awareness among the UMCS community both local and international. Most importantly this project also targets international students for them to be able to fit into the UMCS spots community and be able to interact positively with the polish citizens as they sharpen their skills in different sporting games. This will be achieved by conducting an interview on awareness of UMCS sports community and gather people's personal opinion on what sports they like and would like to join and know if there is anything that is holding them back (this will be important to be able to better the UMCS sports community to accommodate most if not all of the interested people With such valuable information, I will be able to organize a sports events most preferred by the participants as a way of creating more awareness of the UMCS sports community and what it can do for the interested people. All the members of the UMCS community will be invited to attend or even participate on the activity on that day. There will be a short presentation made by me before the beginning of the sports activity about History of Sports in UMCS community and motivate people on how UMCS is ready to support them to reach their fullest potential in regards to sharpening their skills in different sports After presentation there will be a friendly competition of the most preferred sporting activity where prizes will

be won. The prizes will include money, t-shirts, balls, trophies all containing UMCS logo. The awarding will be determined according to the sporting activity chosen. The preparation and completion of the project will take 4 months.

9. **Study Buddy**

Project "Study Buddy" – your "friend" that will help you to know more about opportunities to travel the world being a student. This project aims at showing students the ways to go abroad for studying or volunteering. There will be 3-4 talks with competent on this matter people. Two of them will be students, who will describe their experience and how they got that possibility. They will answer the questions, tell interesting facts, point the main information with a step-by-step guide. There will be information about different exchanging programs in UMCS. Moreover, there will be a person from the organisation, that is also a partner of UMCS, called AIESEC, who is responsible for sending people abroad as volunteers. He will tell about his experience and the opportunities in AIESEC to become an International volunteer. This project will be held via the radio UMCS and has a form as a radio program We plan 3 days on which the program will be held. There will be several interactions for which participants may get prizes.

10. **UMCS foreign student's guide**

Create a guide for foreign first-year students, in which they can find answers to questions related to the arrangement of life and beaten in Poland. It will be a three languages book and E-book (english, ukrainian and russian) with illustrations in UMCS style. This book will be getting every foreign first-year student.

11. **UMCS world week**

Over 1000 international students are studying at Maria Curie-Skłodowska University. Every nationality has its own culture and unique traditions. The aim of the project is to get to know songs, dances, culture of different countries, to talk about the importance to tolerate another cultures and to make new friends from all over the world. Since we have the same aim - to study and make this world a better place, networking will help to keep in touch with each other even in the most difficult situations. The project gives wonderful opportunity to "visit" 7 different countries in 7 days, speak to their residents and practice your English! Talking about forms of action, we will choose 7 countries that will be able to present their culture during the project. Poland is already on the list since we believe that it is very important to know the traditions and the language of the country we are all studying in. There will be two forms of participation in the project. First one - to present your country. With an application form we will make 7 groups with 5-7 people in each group to prepare everything needed for the presentation of their countries (50 students who will present 7 countries) with our volunteers (14 volunteers). Second one - to attend the event and participate in the workshops (for everyone). Each country will be presented in the same way: dance workshop, singing workshop, culinary workshop, language lesson (learning basic words), interesting facts about country's history and traditions. Participants of the project can choose which workshops to visit. We are planning to end the project with a hackathon where students from different countries will generate ideas to promote UMCS in Poland and abroad.

12. **Czemu nie? (Why Not?)**

Aim: Motivate foreign employees, PhD and international student getting out of their comfort

zone.

Target group: Foreign and national students reachable online and physically.

Forms of action: Webinar, workshops, video conference, sports and short video clip.
