BASIC INFORMATION ABOUT THE SUBJECT (INDEPENDENT OF THE CYCLE)

Module name	Urban Development
Erasmus code	
ISCED code	
Language of instruction	English
Website	https://www.umcs.pl/en/courses-in-english,21103.htm
	(dla PJOE)
Prerequisites	-
ECTS points hour equivalents	Contact hours (work with an academic teacher): 30
	Total number of hours with an academic teacher: 30
	Number of ECTS points with an academic teacher: 3
	Non-contact hours (students' own work): 30
	Total number of non-contact hours: 30
	Number of ECTS points for non-contact hours:3
	Total number of ECTS points for the module: 6
Educational outcomes verification	1. Project or written exam at the end of the course
methods	2. Class discussion and activity
Description	Urban development explores the phenomenon of urbanization: its manifestations,
	drivers and outcomes. It applies a multi-disciplinary approach, particularly
	geography, economics and management. Urban development unveils the location
	decisions of utility-maximizing households and profit-maximizing firms, and
	examines the market forces that shape cities and the role of government in
	determining land-use patterns. Particular attention is given to the concepts of
	sustainable development and smart city. Urban development also discusses urban
- - - - - - - - - -	policy issues, with a particular focus on urban development strategies.
