Teaching Profile in Keywords

Public finance, public procurement

Teaching Interest

His interest focus on the functioning public finance system in Poland and UE. Special interest is focused on income and expenditure system of state budget connected with problems of budget deficit and public debt. His PhD dissertation raised the issue of state budget in Poland. In the years 2010-2020 he was partner expert in the Senat of the Republic of Poland. And he provided many expert opinions about the assessment of Budget Acts and public finance system in Poland.

The second branch of his interests is focused on public procurement system. He has been a head and lecturer of postgraduate studies "Public Procurement" at UMCS with the auspices of the Polish Public Procurement Office. Moreover, he prepared and conducts special program for Erasmus students connected with sustainable public procurement.

Courses I Teach

Sustainable public procurement; Public debt management
