PATH FOR TRANSVERSAL SKILLS AND GUIDANCE

Remote Learning with real time peer-to-peer interaction:

1. Cinema on Trial

2. Civil Law Trial

SIMULATION INDEX

1. Description of Facts
2. Case presentation from a legal point of view
3. Preparation of prosecution and defense
(with the support of PhD students and professionals)

SIMULATION INDEX

4. Enactment of the hearing (students simulate the roles of witnesses, parties and lawyers of the parties)
5. Deliberation and reading of the decision

CONCLUSION

These experiments realized as a part of a career guidance path **still** represent an interesting example of how workshop and seminar activities can also be carried out through remote learning systems, to reach people that, for different reasons, can't intervene in person.
