## THE MAIN LIBRARY

## LIBRARY RESOURCES

The Main Library has a huge collection of research and learning resources on all the University disciplines.

Faculty and department libraries present collections directly related to their academic profiles.

Our collection consists of:

- books published after 1800
- journals and serials
- digital collections and electronic databases

## HOW TO USE THE LIBRARY

The library resources are accessible to students with a valid library account. To activate the account you need to fill the declaration of library user (you will find it on the Library's website) and complete the final formalities in person at the library Circulation Desk.

Remember to renew your library account at the beginning of every academic year.

Please note that your student ID card is your library card at the same time.

## HOW THE LIBRARY WORKS

Books for home loan are available to all registered users with a valid library account at the Circulation Desk.

Journals and magazines are used in the library in one of our open access rooms. These areas are accessible to anyone with a valid identity document.

We have an up to date remote access system, which allows you to order books and check availability of resources. The system is open to users with a valid account.

Follow the link below for full access and instructions: [www.bg.umcs.pl](http://www.bg.umcs.pl)

We have a wide variety of digital resources that you can access.

## OTHER SERVICES

Our inter-library loans service can attempt to obtain loans of items from other libraries when the material required is not held in our library. The service is especially designed for PhD students but we are able to provide assistance to others too.

You are welcome to join cultural events organized in the library: exhibitions, talks or poetry meetings.

Inside the library there are computer terminals with internet access for your use, just remember to bring your student card with you.
