Title

(empty line)

Author[1], Author[2], Author[3] (author's first name initials and family name)

(empty line)

[1] Institution or Company 1, Full Address 1
[2] Institution or Company 2, Full Address 2
[3] Institution or Company 3, Full Address 3

(empty line)

E-Mail address (corresponding author):

(empty line)
(empty line)

Margins: top, bottom, right, left: 2,5 cm. **The abstract should not exceed one page, figures included**. The abstract should be written in English using Calibri (this typescript) and single line spacing.

Please do not use CAPITAL WORDS for headlines and names (except for common acronyms). Use standard mixed-case like in "A.Z. Cert".

Please store your text file in Word Format (.docx or .doc) and Portable Document Format (.pdf) and submit your contribution online by Abstract Submission Form on the Summer School website. Each PhD student should provide two abstracts, for **oral** and **poster** presentations. For the file name, use the family name of the presenting author followed by her/his initials typed in small letters, e.g. "certaz.docx" for A.Z. Cert. If more than one abstract is submitted under the same name, please add a number to the file name: "certaz1.docx", "certaz2.docx", etc.

The title is limited to 150 characters. Write the title in font size 14 centred and bold. Leave one line gap after the title. Authors Initials and Surnames (presenting author is underlined) are in font size 12, centred and followed by one line gap. Institutions or Companies names and addresses are in font size 11, centred, and followed by one line gap. Use the upper index for the Institution or Company number. E-mail of corresponding author is in font size 10, aligned on the left. Leave the gap of two lines before the main text of abstract. There are no punctuation marks at the end of these lines.

 In the main text of abstract use one line gap between paragraphs. Start the paragraph with 5 spaces shift. Justify (align the text on both sides) in the rest of the text.

 Put reference numbers in square brackets, for example [1-3]. In order to ensure a smooth abstract book preparation, please do not insert text or references in "footnote" mode or other encoding.

 Write formula in separate lines with variables in italic and the equation number in round brackets on the right. For any symbols, use the "symbol" font.

$$\Psi = \Psi_0 \exp(-\alpha x^2) \tag{1}$$

 If figures or images are included in the abstract, please insert them as jpeg format files. In the text, refer to figures and tables as Fig. 1 and Table 1, respectively.

Fig. 1: Figure and table captions should be written in Calibri, Italic, font size 10 and aligned with the figure

(empty line)

References
Leave the gap of two lines below the body text. Then the heading "References" follows in font size 10 and bold. Reference citations should appear in the order in which they are referenced in the text and be written in font size 10, aligned on the left and as following:
[1] Authors, *Journal title* **Volume**, Pages (Year).
[2] Authors, *Book title*, Editors, Publisher, City (Year).
