

Guidelines for the preparation of an individual research plan at the Doctoral School of Quantitative and Natural Sciences of Maria Curie Skłodowska University in Lublin in the discipline of Earth and Environmental Sciences

The project of an individual research plan at The Doctoral School of Quantitative and Natural Sciences of MCSU in Lublin in the discipline of Earth and environmental sciences is prepared by the doctoral student in consultation with the supervisor (supervisors / auxiliary supervisor). This project should include:

- 1) title of the doctoral dissertation;
- 2) concept of doctoral dissertation, including:
 - a) justification of the choice of the topic of the dissertation, in particular its novelty, in relation to the current state of knowledge in the field of the subject of this dissertation,
 - b) the purpose of the work, information about the materials needed to achieve the goal and the planned research methods;
- 3) schedule for the preparation of a doctoral dissertation including:
 - a) research plan,
 - b) plan for disseminating research results (publications, active participation in scientific conferences)
- 4) the planned date of publication taking into account: a) the requirements contained in the Regulations of the Doctoral School of Quantitative and Natural Sciences (§ 13 section 2 point 2, letter a and b), while additionally meeting the condition that the publication makes a significant contribution to the evaluation of the Earth and environmental sciences discipline,
- 5) deadline for submitting the doctoral dissertation.
