

# THE DAY OF STUDENT SCIENTIFIC CLUBS

Student government with Student Scientific clubs and the Leadership of the Faculty Biology and Biotechnology UMCS are pleased to invite you to  
a Day of Student Scientific Clubs!

It will take place on **December 1st** (Thursday) 2022  
from **10:00 to 14:00** in the column room 0129B, auditorium room 0131B and the room 0149B (-1 floor)

If you are interested in joining Students Research group or curious how Students Reserach Group and Students goverment works a tour Faculty, this event is a great oportunity for you!  
You will have the oportunity to speak with students organizations members and participate in interesting workshops and lectures!

## EVENT SCHEDULE

Time	Event	Lecturers	Place
10:00	<u>The opening of the Day of Students Research Groups of the Faculty of Biology and Biotechnology</u>	Dawid Świstak, Bartosz Kucharski,  Head of Students Government Department,  Leadership of the Faculty Supervisors of the Students Research Groups	<b>0131B</b>  (Auditorium room)
10:00-14:00	<u>Student scientific clubs exposition</u>  – Display od Student scientific clubs activity; – Quizzes with prices; – Promotion of Student scientific clubs; – Opportunity to speak with representations of student scientific clubs and students governemnt	Representants of Students Research Groups Students Government	<b>0129B</b>  (Column room)
<b>Lectures</b>			
11:00-11:15	<u>„Identification of the most common tick species in Poland”</u> Importance of identifying tick species and how to recognise them. Tick influence and their vectors. (lecture in English)	Anita Veseli	<b>0131B</b> (Auditorium room)
11:15-11:30	<u>„How to professionally touch yourself like a neuroscientist”</u>  Greetings, curious stranger! On this workshop you will learn to touch the hairs on your arm (or whichever place you prefer) like a real neuroscientist. Trust me it's not as weird as it sounds. You will understand HOW exactly your brain realizes that something has touched you. Whether it's your own hand, your dog's cute tongue, or a spider falling from the ceiling. Bring a friend to test your new touching knowledge on. Ask them for permission first, please. (lecture in English)	Mykyta Osadchyi	<b>0131B</b>  (Auditorium room)
11:30-11:45	<u>„How to give an verbal presentation?”</u> Rules for the presentation of research results, participation in scientific conferences, creation of multimedia presentations. (lecture in Polish)	dr hab. Marcin Polak, prof. UMCS	<b>0131B</b> (Auditorium room)
11:45-12.00	<u>„How to make research project”</u> Overview of reserach projects and scholarships for students. (lecture in Polish)	mgr Magdalena Kunat-Budzyńska	<b>0131B</b>  (Auditorium room)
<b>Workshops</b>			
12.15-12.45	<u>„How we are supposed to live, love, laugh in these conditions”.</u>  How to deal with stress, feeling overwhelmed and exhaustion from biological perspective. How to simplify and balance your life when you are a student using science. Tips from personal experience of a master student and senior bachelor student. (lecture in English)	Kavindi Jayawickreme, Anastasiia Tesliuk	<b>Room 0149B</b>
12:50-13:10	<u>„Як жити, а не існувати, якщо Ви є студентом”</u>  Спосіб покращити якість свого повсякденного студентського життя, використовуючи біологію. Як втримати ту саму абстрактну рівновагу. Поради з особистого досвіду студентки третього курсу бакалавра. (lecture in Ukrainian)	Anastasiia Tesliuk	<b>Room 0149B</b>
13:15-13:35	<u>„PhD from A to Z- 4 years of scientific reserach,.</u> If you want to learn more about how to apply for a PhD school, the course of your entire studies, work and planning your future career — come and talk! The second year PhD student will dispel your doubts! (lecture in Polish)	mgr Sylwia Stefanek	<b>Room 0149B</b>
13.45	<u>„The end of the Day of Students Research Groups”</u>	Council of the Faculty Students Governemnt	<b>0131B</b> (Auditorium room)
