CITY FOR THE YOUTH YOUTH FOR THE CITY

Lublin is the new European Youth Capital. Lublin strives to be an open and friendly city, identifying the needs and aspirations of young people. A place where, regardless of their origin, ideology, sexual orientation or gender identity young people have their own space, feel like they are at home, are heard and valued.

Against this backdrop - in the global marketplace for talent and skills, Universities and City Authorities find themselves under pressure from employers and policymakers to ensure they retain the young graduates and postgraduates needed for the labour market. This topic is increasingly important for City and University tandems, but the solutions can be very different across our cities.

Our unique event will seek to use Expert Panel Sessions to help define the problems we must resolve and innovative Design Thinking Workshops to devise exciting solutions. In doing so we are looking for all of our EUniverCities partners to bring their own experiences and to contribute in their own ways to this great European challenge.

PROGRAMME

DAY 1
