## "Creative Thinking and Intellectual Property"

the list of elective disciplines that form soft skills

# "Creative Thinking and Intellectual Property"

2019-  
2020

first years of  
bachelor's

2021-  
now

second years  
of bachelor's

# "Creative Thinking

2021-  
now

first year of master's  
level

## ***The first task:***

**do you consider yourself a creative person?**

*Justify your answer*

## ***The second task “Waiting list”:***

- **what do you expect from this course?**
- **what were your first associations ?**
- **when you saw that there was an opportunity to choose this course, why did you choose it?**

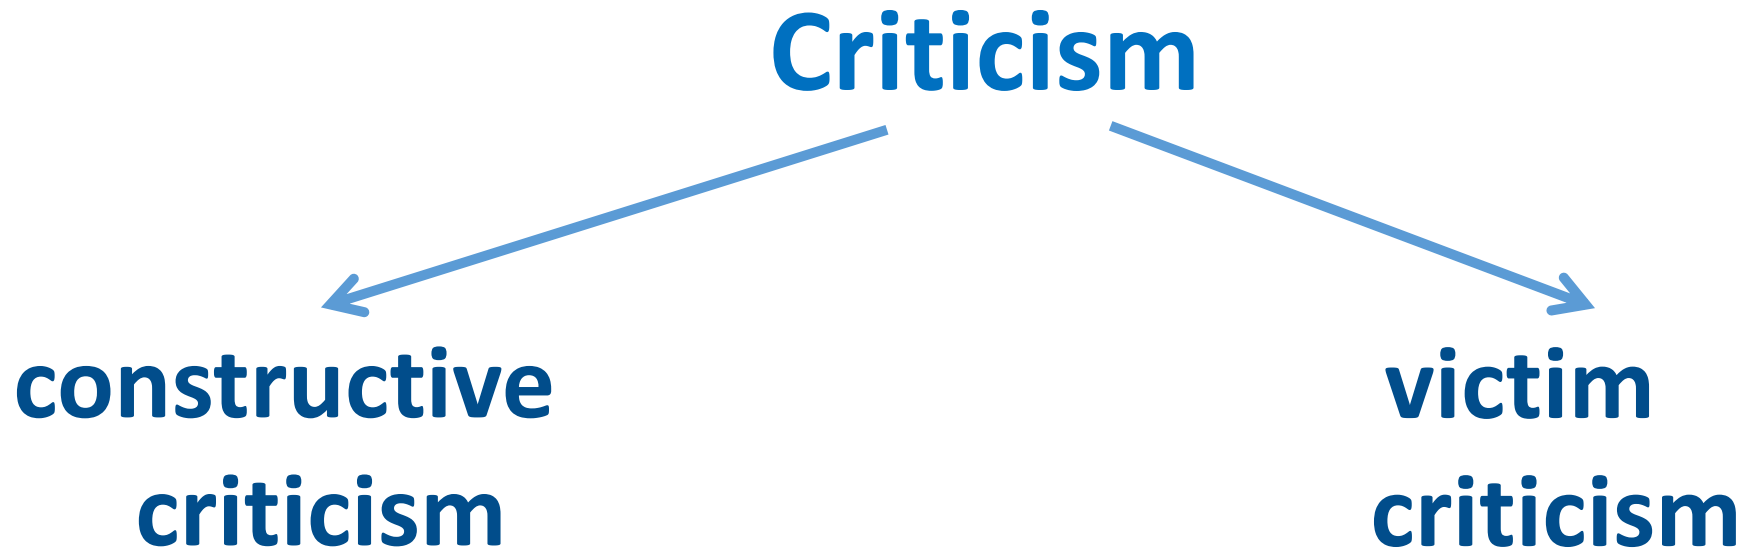

# Task "Here and Now"

- 1. Do you CURRENTLY consider yourself a CREATIVE person?**  
*(write as of the moment: have you noticed any changes in your creativity over the past few months? What changes exactly? What do you think influenced these changes. If you did not notice any changes, we also write)*
  - 2. What did you remember most from the classes (both positive and negative) and why?**
  - 3. Did your expectations from the classes come true?**
  - 4. What are your recommendations for improving the classes (it would be good if you could justify your suggestions)?**
- Please complete this task as honestly as possible, your answers will not have a negative impact on your grade.**

# Feedback from students

# To return to the classroom

**Often don't have time to  
listen to all of students**

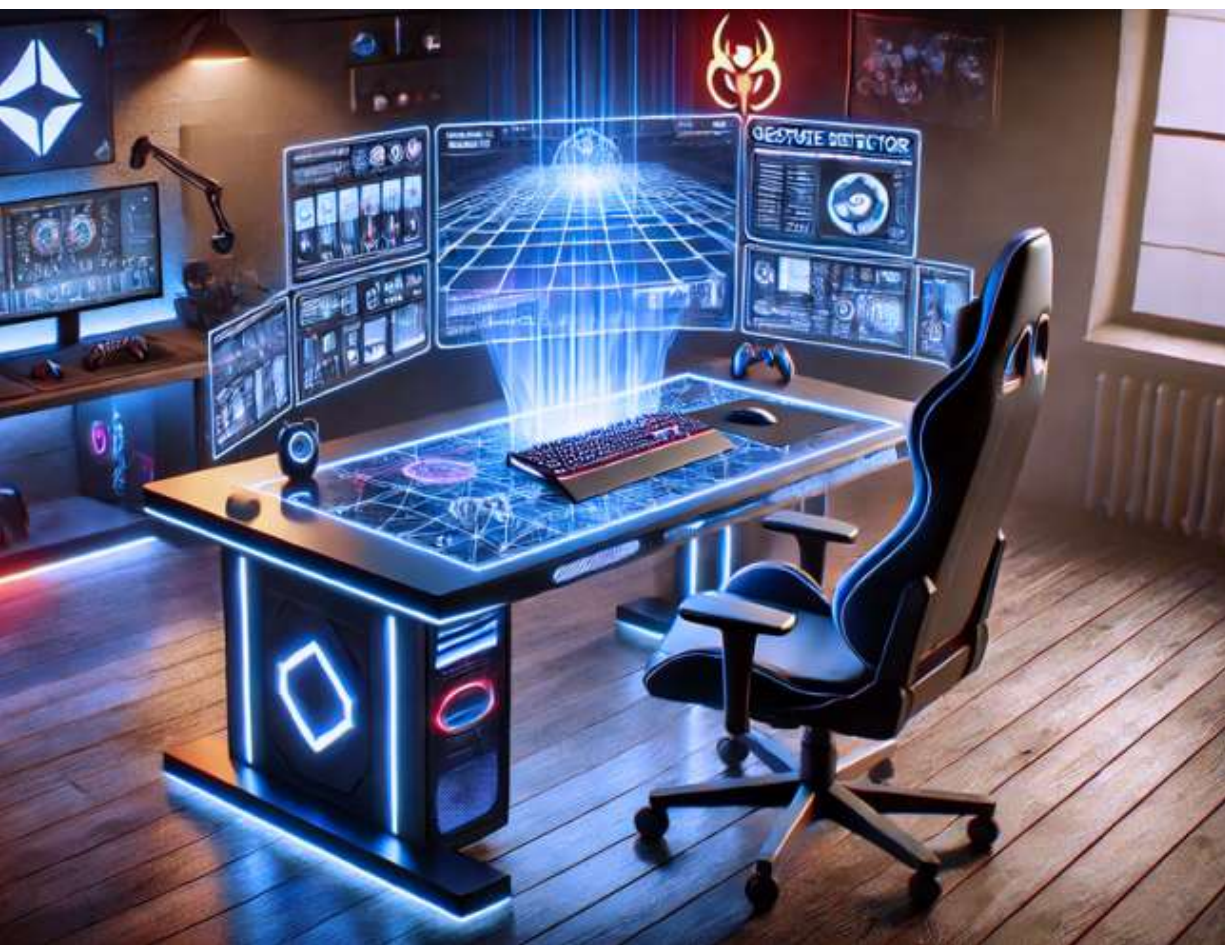

# The main points master's feedback

- now I know what I will write about in my thesis.
- I did not expect, but it turns out that I am creative.
- I was skeptical at the beginning of the semester, but the course really turned out to be useful.
