Prowadzący	Jakub Czerniak
ERASMUS+ (semestr zima) 2025/2026	ТАК
Oferta PJOE (semestr lato) 2025/2026	NIE
Kierunek, rok, stopień dla PJOE (*obowiazkowe)	

* PJOE – przedmiot w języku obcym dla studentów polskich oraz dla studentów Erasmus+

** zostawić właściwe

BASIC INFORMATION ABOUT THE SUBJECT (INDEPENDENT OF THE CYCLE)

Module name	Applied Economics Real-World Challenges and Solutions
Language of instruction	English
Prerequisites	-
ECTS points hour equivalents	Contact hours (work with an academic teacher) - 30
(30h = 6 ECTS; 15h = 3 ECTS)	Total number of hours with an academic teacher - 30
	Number of ECTS points with an academic teacher - 4
	Non-contact hours (students' own work) - 20
	Total number of non-contact hours - 20
	Number of ECTS points for non-contact hours - 2
	Total number of ECTS points for the module - 6
Educational outcomes verification methods	Class activity assessment (taking part in discussions and preparing projects)
Description	The module covers the most important concepts from micro- and macroeconomics
	and applies them to solving today's most important economic problems (e.g. the
	impact of automation on the job market, taxation of junk food, income inequality.
	development of the sharing economy and the gig economy).
	Classes consist of the discussion part (in which the individual problems are analyzed)
	and the workshop (the result of which will be preparation of the project). Forms of
	project work will be diverse – students will prepare, among others, infographics,
	reports, websites, short films, and social media posts
Reading list	1. Selected online courses from Marginal Revolution University, available at
	https://mru.org/economics-video-library
	2. The Economy, available at core-econ.org
	3. Cowen T., Tabarrok A., Modern Principles: Macroeconomics, 2018
	4. Chang H-J., Economics. The User's Guide, 2014
	5. Samuelson P. A., Nordhaus W.D, Economics, 2009
	6. Mankiw N. G., Taylor M. P., Macroeconomics, 2012
	7. Boundless Economics, available at courses.lumenlearning.com/boundless-
	economics/
Educational outcomes	KNOWLEDGE
	A student should be able to:
	1. explain the main economic terms,
	2. describe how the economy works from the perspective of micro and
	macroeconomics models,
	3. list the most important problems in national economies and in the global
	economy.
	SKILLS
	A student should be able to:
	1. understand relations in the economy in micro and macro scale and
	conduct economic analysis,
	2. notice and explain interactions in the economy at individual household
	and national level,
	3. use modern IT tools for searching and presenting information, data, and
	economic ideas,
	4. be able to work effectively in a group, perform different roles under time
	pressure.

	 ATTITUDES A student should be: opened to acquire new knowledge and to learn how to use new tools ("growth mindset"), opened to discussion, to present own arguments and to understand other points of view, ready to perform the role of active and informant voter.
Practice	n/a
